SUN LIFE MAKES GREAT RECORD

It is only four years since, for the first time in the history of life assurance in Canada, a Canadian company was able to announce over a billion dollars of assurance in force. The event was properly celebrated by the company in question, Sun Life Assurance Company of Canada, and evoked much gratified comment from public men, financiers and journalists, as well as creating general satisfaction among the Canadian public. It was regarded as a signal achievement in a little more than 50 years of that company's history.

President Macaulay upon that occasion expressed confidence that the momentum then acquired would carry the company to even more surprising achievements in the next decade. But it is doubtful if even the president of the company, himself, who personifies confidence and optimism, could have foreseen that the second billion would be surpassed

T. B. MACAULAY,
President, Sun Life of Canada.

within four years. Yet this is what has happened. The annual report of the Sun Life Company published in this issue of the Review shows that the total assurances now in force are close to two and a half billion, or \$2,401,000,000. Some idea of the magnitude of these figures may be gleaned from the fact that they exceed the total net national debt of the Dominion by more than \$100,000,000.

The new paid-for business for the year shows an increase of \$213,200,000, or 48% of an increase over the preceding year. This increase is greater than the total business written in 1925. The actual new paid-for business was \$654,450,000. This is an amazing showing considering the

Vice-President, Sun Life of Canada.

conditions that prevailed during the latter part of 1929, and reveals what a wide and efficient organization has been created by the Sun Life Company, and how thoroughly it enjoys public confidence.

The income of the company, \$172,850,000 (an increase of over \$28,600,000 over 1928), is \$15,000,000 more than the entire customs revenue of the Dominion in 1928.

The assets of the company were in excess of nearly \$50,000,000. They now stand at \$508,000,000.

The undivided surplus has been increased by \$5,848,000, bringing the total over liabilities, contingency, etc., to over \$50,000,000.

In connection with the item of \$60,174,892 paid to policyholders and beneficiaries for death claims, the

PRESENTATION TO THE GUIDES

The annual meeting of the Local Association to the Guides and Brownies was held Tuesday with a full attendance of members. Mrs. Goddard, the president, was in the chair. During the afternoon 10 new members were enrolled.

The minutes of the last annual meeting were read after which the secretary and treasurer read their reports for the year, which showed a most interesting showing that she had 18 Guides and 21 Brownies. Quite a long list of Guides and Brownies who had passed tests during the year was given, which showed the splendid training they had been given by their leader, Miss Goddard. The election of officers then took place, Mrs. Goddard being unanimously re-elected president. Balloting returned the following: Vice-president, Mrs. Hollands; secretary, Mrs. Le Vick; treasurer, Mrs. Mounce; badge convener, Mrs. King; captain, Miss Iria Goddard; Brown Owl, Miss Moses.

Mrs. Gale, district commissioner, was then introduced and gave a most interesting talk to the mothers, especially pointing out the companionship that was needed between mother and daughter.

A very pleasant incident occurred at the close of the meeting when Mrs. Grace, regent of the Allies' Chapter, I.O.D.E., and several of the members of the order, presented a pair of framed pictures of the King and Queen and a scroll to be hung on the walls of the hall. Mrs. Goddard, on behalf of the association, thanked the Allies' Chapter for their gifts, after which the meeting adjourned with the singing of the National Anthem.

FULFORD, Feb. 27.—Sunday afternoon, February 23, Mrs. Walter Cearley gave a birthday party in honor of her little grandson, Master Madison Isherwood, who celebrated his first birthday. Several keepies were to be seen here and there, holding the streamers, which were suspended from the beautiful two-tiered cake placed in the centre of the table with its decorations of colored roses and one candle. Master Bobby Paterson, a cousin of the little boy, had the honor of cutting the first slice. A dainty tea was served at the tea-hour to the little guests and their parents. A very enjoyable afternoon was spent by all present. Among the guests were Mrs. M. Gyves and little daughter, Deena, Mr. and Mrs. Arthur Barnett, Mr. and Mrs. W. Peterson, and Len Bob, Miss Edna Morris, Master Kirby Eaton, Mrs. John Molloy, and Miss Alice M. Johnson.

BRINGS HOME THE BACON!

Definite action is now being taken by the Provincial Government in providing a ferry service between Swartz Bay, three miles north of Sidney, on the Saanich Peninsula, and Fulford Harbour, on Salt Spring Island. Tenders are being invited for a vessel to operate on the run under conditions

set out in the specifications. These tenders will be received up to noon on March 10.

The ferry service is one that has been urged for a considerable time and various efforts to get action upon the matter have been brought forward. In turn they have not proved successful. Within recent months, through the efforts of Col. C. W. Peck, V.C., the representative for The Islands, who has been backed up by others, the effort has been attended with success.

The Minister of Public Works, Hon. N. S. Loughheed, has made provision for the establishment of a ferry service, and is now calling for tenders. See page three. The successful tenderer will be granted a ten-year charter, subject to a renewal of the franchise for another ten years in case of satisfaction at the end of the term.

The Great White Fleet

Canadian Pacific Express Liners on both oceans will all be painted white when the Atlantic ships, Empress of Australia, France and Scotland have been metamorphosed into the Pacific fleet always was white and the new giant vessel, Empress of Britain, now building, will be white also. With the opening of the St. Lawrence season of navigation next April, the Canadian Pacific will possess the greatest white fleet in the world. And ships are to retain the familiar buff-yellow funnels and ventilators and will have white upper works and a white hull relieved with a blue streak. Above is the artist's conception of the Empress of Britain fleet, when completed, shown on right with Chateau Frontenac, Quebec in background and the Empress of Japan, biggest ship on the Pacific. The ships were depicted by O. F. Pennington, marine artist of note and an officer in the Canadian Pacific service.

Dance At Ganges

By Review Representative

GANGES, Feb. 27.—Friday evening a very enjoyable novelty dance was held in Mahon Hall, organized by members of the Ganges Basketball Club. Streamers and Japanese lanterns decorated the hall in an artistic manner, reflecting great credit on those responsible for the carrying out of the scheme. During the evening a statue dance was staged, the prize winners being Miss Lois Wilson and Laurie Mount. A prize was offered to the couple who carried out the old-time waltz correctly. Ladies were requested to go to one side of the hall and the gentlemen to the other. W. Evans, dressed as a tramp, then entered the hall and escorted the ladies, one by one, to a partner he had previously chosen. This caused a great deal of fun and finally the lucky winners were chosen, Miss Iris Kerr and J. H. Lee. A balloon dance was then put on, the winners being Miss Mabel Harris and Dermot Crofton. A number of "Moonlight" dances were indulged in by turning out the lights of the hall and dancing by aid of the Japanese lanterns. Hague's orchestra supplied the music for the dance, which was kept up until the early hours of the morning. D. Tweedhope acting as master of ceremonies. L. Peterson auctioned off several cakes during the latter part of the evening. Members of the club extend their thanks to all who assisted in making the evening such an enjoyable one.

Y.P.S. Meeting

The next meeting will be in the hands of the Literary Committee and the subject will be "Marine Biology."

We say high grade because his herd averages over 6% butter fat whereas the government minimum is 3.3%.

LETTERS TO THE EDITOR

The Editor assumes no responsibility for the views expressed by correspondents. All letters must be signed by the writer, not necessarily for publication. Writers are requested to be brief and to the point.

A REPLY TO MR. THORNLEY

Editor, The Review.—I must confess I was not altogether surprised to read the letter from Mr. E. A. Thornley in your last issue.

I sat next to him at the Horticultural meeting, and felt all was not going well with my neighbour. I expect some would say, "my subconscious self was registering an adverse atmosphere."

Not being his wife I did not give any "digs in the ribs," nor did I receive any.

Environment is alright as far as it goes, but however good the environment the briar is still the briar, improved perhaps. You have to introduce the knife and the bud if you want the cultured rose.

Prof. Boving presented a truly awful picture of the physical, mental and moral degradation of man, backed by the result of research, investigation and figures. But the case is not hopeless; from personal experience and knowledge we have known many pieces of "broken earthenware" who have been recovered in the midst of the worse slum conditions — "And they shall be Mine, saith the Lord of Hosts."

Yes, friend Thornley, what environment, education, intelligence or circumstance cannot accomplish, is being secured by "Light from on High."

"But it is with man's soul as it was with Nature, the beginning of Creation is — Light. Till the eye have vision, the whole members are in bonds. Divine moment, when over the tempest-tost soul, as once over the wild, weltering chaos, it is spoken, 'Let there be Light!' — T. Carlyle."

In closing I will quote Paul: "For I am not ashamed of the gospel of Christ; for it is the power of God unto Salvation to everyone that believeth."

W. H. DAWES.

SAANICH FAIR TO BE BETTER

By Review Representative

SAANICHTON, Feb. 27. — Many improvements were authorized by the directors of the North and South Saanich Agricultural Society at their meeting on Wednesday of last week, when organizing the 1930 fall fair. Goat Breeders' and the Rabbit Breeders' Associations. These have appointed delegates to assist in organizing the Saanich fall fair.

Secretary Nat. Gray was authorized to proceed with printing the prize list, and committees were urged to complete revision as soon as possible, so that exhibitors may get copies of the prize list much earlier than usual. SUN LIFE MAKES GREAT RECORD

(Continued on Page Four)

tured endowments, profits, etc., it is interesting to note that not only have payments under this head since organization reached the sum of \$419,574,000, but that this amount, together with the amount at present held for the security or benefit of policyholders exceeds the total amount received from them in premiums by \$139,290,000.

Even more impressive is the statement that the rate of interest earned on the mean invested assets has risen to 7.02%. This figure includes a certain amount from bonuses and stock privileges accruing on some of the company's holdings, but if these were entirely eliminated the rate would still be 6.60%.

Such a remarkably successful year by our leading life assurance company favorably reflects the sound conditions in general Canadian business.

NEW HEAD OFFICE BUILDING

Rate of Interest earned on mean invested assets 7.02%

The high rate of dividends allotted to participating policyholders is continued and the special dividend on maturing policies extended and increased.

EXTRACTS FROM DIRECTORS' REPORT

New policies paid for numbered 161,391 for a net amount of \$654,451,143.27, an advance of \$213,206,752.36, or more than forty-eight per cent., over the previous year. This marked increase and the fact that the average policy, for the first time, exceeded \$1,000, afford impressive evidence of the ever-growing popularity of the Company.

After deducting amounts reassured, the total assurances in force amount to \$2,401,237,036.94, an increase of \$504,321,102.37. This advance is notable not merely for its magnitude, but because when allowance is made for terminations by death and maturity, it represents a remarkably high rate of increase in the business of the Company.

The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$139,290,174.03.

The rate of interest earned on the mean invested assets has risen to 7.02 per cent. This figure includes a certain amount from bonuses and stock privileges accruing on many of the Company's holdings; but if these were entirely eliminated the rate would still be 6.60 per cent.

A net profit of \$13,077,284.62 was realized from the redemption or sale of securities.

The surplus earned during the year, based on the values entered in the accounts, amounted to \$12,863,578.59, but from this sum substantial appropriations have as usual been made to further strengthen the position of the Company.

An additional \$10,000,000.00 has been deducted from the market values of our securities as a provision against possible market fluctuations, raising the amount thus set aside for this purpose in the accounts to \$30,000,000.00.

A further \$1,000,000.00 has been written off the Company's buildings.

\$931,000.00 has been appropriated to raise the annuity reserves to the Rutherford table of valuation, with interest at 3 1/2 per cent. This exacting standard requires reserves of \$2,656,000.00 in excess of those of the Dominion Government standard.

\$1,200,000.00 has been set aside as additional provision for claims arising from total disability, death claims as yet unreported, and possible claims under cancelled policies on which a surrender value or reinstatement might be applied for.

\$22,000,265.67 has been paid or allotted as profits for the year to policyholders.

The special amount entered as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.00.

After making all these deductions and allocations, \$5,868,899.96 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts and capital stock, to \$60,307,762.44.

In accordance with our usual conservative practice the securities owned by the Company have again been valued at figures much below the market quotations current at the close of the year. This undervaluation represents an important element of strength to the Company additional to the specific provisions in the statements.

Your Directors are pleased to announce that the high scale of profits at present allotted to participating policyholders will be continued during the ensuing year, while the Special Dividend on maturing policies, introduced last year, has been extended to include policies maturing after having been in force five years or longer and the scale of benefit has been increased.

The business of the Company has always been conducted under the exacting provisions of the Canadian Insurance law and the rigid supervision of the Insurance Department of the Government of Canada. Ever since we entered the United States in 1895, the Company has been under similar supervision there and is now subject to the regulations of thirty-eight States of the Union which require periodical examination of the affairs of all companies licensed in their territory. In the discharge of their regular duties a committee of twenty-two examiners, representing the States of Michigan, Massachusetts, Minnesota, Ohio, Tennessee, Washington, Virginia, West Virginia, Florida and the District of Columbia recently completed an exhaustive examination into every department of the Company's affairs. The report of this committee makes gratifying reference to the liberal treatment accorded to our policyholders, and provides authoritative testimony to the Company's strength. Even adopting the low valuations placed by us on our securities, the committee still reported a surplus at the close of last year \$1,553,921.71 in excess of the figure claimed by the Company.
